

ESIC HOSPITAL RUDRAPUR

BLS (Basic Life Support) training held at ESIC Hospital, Rudrapur on (10-03-25) The training was given by Dr. Atul Joshi (Part Time Anesthetist). The Training aimed to equip healthcare professionals and staff with essential life-saving skills. The session covered techniques for managing respiratory and cardiac emergencies, including CPR (Cardiopulmonary Resuscitation). Participants were trained to recognize the signs of life-threatening situations, ensuring a quick and effective response in emergency scenarios. The training is crucial in enhancing the readiness of healthcare workers in providing immediate care and improving patient outcomes during critical moments.
